Feature	Kodiak Group Online Backup Service	Kodiak Group Premium Backup and Disaster Recovery Service
Cloud Backup Data is automatically backed up to secure servers on the Internet	●	●
Local Backup Data is also backed up locally, enabling faster restores in the event that the local backup is viable and contains the data required	●	●
Image-Based Backup Creates an image of the machine being backed up so that it can be restored exactly as-is, including installed softwre	○	●
Bare Metal Restore Enables a backup to be restored to a "Bare Metal" computer (a brand new piece of hardware) even if that hardware is not the same as the original computer that generated the backup	○	●
MS SQL and Exchange Backup Capable of backing up Microsoft SQL Server and Exchange Server	○	●
Encrypted Backups Backups are encrypted for security and legal compliance	●	●
Email Notification Users and Admins can receive email notification about the success or failure of their scheduled backup jobs	●	●
Bulk Point-in-Time Restore Files can be restored in bulk (multiple files at once) from any date in time that backups exist	●	●
Instant Off-Site Virtualization In the event of a data disaster, the machine(s) being backed up can be virtualized (replicated and turned on) instantly in an off-site data center to enable users to access the virtual copies as if they were working off of the original machine		●
Instant On-Site Virtualization In the event of a data disaster, the machine(s) being backed up can be virtualized (replicated and turned on) instantly on-site to enable users to access the virtual copies as if they were working off of the original machine		○
Unlimited Cloud Storage Capability Supports unlimited online storage with default retention set to 1 year but additional years available at additional cost		●
Screenshot Backup Verification Will virtualize the machine being backed up in the remote data center and generate a screen shot as proof that the machine is able to be virtualized (and thus the backups are working correctly) to provide ultimate peace-of-mind		●

Key: ● - *Included*   ○ - *Included in some licenses/versions but not all*
